Objective:

Establish a robust development environment to enable efficient project execution.

Key Results:

1. Set up the environments and hosting infrastructure by the end of Sprint 1.

2. Ensure all team members have access to necessary tools and resources by the end of Sprint 1.

3. Achieve 100% completion of preparatory tasks for Sprint 1.

Sprint 1 Summary:

- **Sprint Velocity:** 5%
- **Focus Areas:**
    - Environment setup
    - Hosting configuration
    - Initial setup tasks
    - Sprint planning
    - Mockup Enhancement
    - Database Design
- **Achievements:**
    - Established a fully functional environment.
    - Configured hosting infrastructure.
    - Completed all preparatory tasks.

Sprint 2 Plan:

- **Focus Areas:**
    - Implementing the landing page and dependencies
    - Conducting knowledge transfer sessions
    - Developing the backend infrastructure
- **Commitment:**
    - Our team is dedicated to starting the implementation phase, emphasizing task delegation and connectivity to ensure seamless project progress.
